Title:	36 people from Gudur S A Tanda in Jewargi taluk fell ill after they drank contaminated in district Gulbarga, Karnataka			
Action By CSU, IDSP -NCDC	Information communicated to DSU- Gulbarga , SSU-Karnataka			

As many as 36 people from Gudur S A Tanda in Jewargi taluk fell ill after they drank contaminated water from bore well and were admitted to hospital on Tuesday. According to Hospital sources, more than 36 people were admitted to Jewrgi government hospital and some were treated as outpatients.

The victims started vomiting and diarrhoea on Monday night and were taken to the Hospital and Primary Health Centre in Jewargi. The District Health Department officials, who visited the Hospital, said that the contaminated bore water in the Tanda was the main reason for the incident. Poorly designed septic tank, soak pits and open pit latrines were the major water contaminated source in the village Tanda

Save Water- Save Life, Save a tree- Don't print unless it's really necessary!
