एक कदम स्वच्छता की ओर

"We have set up a fever ward that can accommodate over 50 patients. With the onset of monsoon, the Health Department is all geared to tackle the rising fever cases," said a doctor working at the General Hospital.

The Health Department has identified high-risk areas at Thrikkakara, Angamaly, Kothamangalam, Perumbavoor and North Paravur in the district.

"The monsoon cleaning drive is progressing at many parts of the district. We have strengthened our precautionary measures in high-risk areas to tackle the spread of disease. People must take proper care to remain healthy and should not ignore symptoms of fever," said Additional DMO Dr Sreedevi S. In several colonies in Kuttampuzha, cases of cholera have also been reported.
