Title:	10 suspected diarrhoea cases reported from Jheurheri village near Mohali airport in district S.A.S. Nagar, Punjab			
Action By CSU, IDSP -NCDC	Information communicated to DSU- S.A.S. Nagar, SSU- Punjab			

Around 10 suspected diarrhoea cases were reported from Jheurheri village near the airport here today.

The Water Supplies Department collected 10 water samples from houses and the tube well supplying drinking water in the village.

On the instructions of the Civil Surgeon, the Health Department also took samples of drinking water from the village.

Health Inspector Dinesh Chaudhary said some of the residents had complained of vomiting and loose motions. They were given medicines at the dispensary and were being monitored. On July 10, the residents had staged a protest against officials concerned for dirty tap water supply for the past some days due to which people were falling ill.

The residents alleged that chlorination was not done and there was a risk of spreading waterborne diseases in the area.

Residents of Hillview Society, Peer Muchalla, had also complained that they were getting dirty tap water for the past few days. Municipal Corporation officials have been informed repeatedly about it, but no action was being taken. They complained that sewage was contaminating the drinking water supply. Foul smell was emanating from the tap water.

They said chlorination of water and monitoring of tube well water supply should to be done regularly in the rainy season.

Residents given medicines

Health Inspector Dinesh Chaudhary said some of the residents had complained of vomiting and loose motions. They were given medicines at the dispensary and were being monitored. On July 10, the residents had staged a protest against officials concerned for dirty tap water supply for the past some days due to which people were falling ill.
