Title:	Infant dies at Kerala hospital due to rabies			
Action By CSU, IDSP -NCDC	Information communicated to DSU-Thiruvananthapuram, SSU-Kerala			

A 15-month-old infant who was admitted in the intensive care unit of the SAT Hospital here with encephalitis-like symptoms died on Thursday. The death has now been confirmed as due to rabies. The infant was identified as Rejin, child of Reena. The clinical history revealed that the child had been scratched on the shoulder by a stray dog nearly one-and-a half months ago. "The family either did not take the incident seriously or forgot about it. The child was not given anti-rabies vaccination," hospital Superintendent A. Santhoshkumar said.
